

The New Zealand Curriculum

Children have 2 years to complete each level of the curriculum.

This diagram shows how curriculum levels typically relate to years at school. Many students do not, however, fit this pattern. They include those with special learning needs, those who are gifted and those who come from non-English-speaking backgrounds. Students learning an additional language are also unlikely to follow the suggested progression: level 1 is the entry level for those with no prior knowledge of the language being learned, regardless of their school year.
